

size

function.

- Amino Acid Metabolism
- Carbon Metabolism
- Cell motility
- Cell wall/membrane/envelope biogenesis
- Development
- DNA Damage
- Energy production and Conversion
- Fatty Acid Metabolism
- Genome Modification
- Membrane Transport
- Metal Homeostasis
- Nitrogen Metabolism
- Nucleic Acids
- Phosphate Metabolism
- Protease
- Quorum sensing
- Secondary Metabolism
- Stress Response
- Sulfate Metabolism
- Translation
- Uncharacterized
